INSURANCE OFFICES

WISCONSIN
Home Insurance Office,
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 20, 1855.

INSURANCE EFFECTED UPON DWELLING HOUSES, Stores and other Buildings, Household Furniture, Merchandise and other property, against

LOSS OR DAMAGE BY FIRE.

This is a new Company, organized the 20th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks; but to the present time the business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the Insuring Public, has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual System in one Company.

This Company commenced business with a capital of $50,000, and have already issued upwards of 250 policies; and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbia, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurance men in the Stock plan of Insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk, in Village, within a circle of 4 in rods diameter, which of course will prevent very great loss at one fire.

Applications for Insurance, respectfully solicited.

☞ Agents wanted for the above Company.

Highly Important to Farmers.

The only Exclusive Farmers' Insurance Company in the West.

THE MADISON MUTUAL,
Located at Madison, Wisconsin,

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds if not three-fourths of all the fires that occur are upon stores, taverns, mills, shops, and such like property. In this Company all such property is rejected positively by LETTING THEM ALONE.

Farmers, look to your own interest and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months* we *have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

FROM
Skilling, Vlascher, Owen & Schell,
GENERAL NEWSPAPER ADVERTISING HOUSE,
No. 346 Broadway, New York.

Pure Unadulterated
BRANDIES,
DIRECT FROM THE GROWERS.

ONE OF THE PRINCIPAL AND GREAT CAUSES of the high price of brandy in this market, is the indirect source from which it is derived. Nine tenths of that imported is received from merchants in Cognac, who buy of the farmers in that district and ship it to the United States, at much advanced prices, and frequently in an adulterated state. In view of these facts, and for the purpose of securing a fair price for their product, a union of brandy growers in France has been accomplished, with the view of shipment to the United States.

The name of the consolidation is the Central Society of Vineyard Proprietors of Cognac, under the General management of M. Rodden, and the direction of a President, Vice President, and a Committee of Inspection of eight members. The society is, it numbers five hundred vineyard proprietors, amongst them some of the most influential noblemen in the neighborhood of Cognac, who contribute under certain bylaws, the entire growth of their vineyards to the general fund of the society, the present capital of which is three million francs. The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment on the subject; nevertheless, it may be worthy of observation that few features in this society possess a more striking claim to public attention than the fusion of interest effected between buyer and seller. Since all are shareholders, it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn, for shipment of the best qualities of brandies. For this purpose a clause, introduced in the statutes (Article 40) renders it imperative that shareholders shall supply the society with the very best Cognac brandies, otherwise they incur the liability of an entire forfeiture of their shares.

The undersigned, sole agents for the United States for the Central Society of Vineyard Proprietors of Cognac, would solicit the attention of merchants, hotel keepers, grocers and others to the vintages now on hand, confident that they will compare more than favorably with any at this time in the market, and at prices far below the standard of even ordinary Cognacs.

The only place in this City where you CAN BUY A REALLY SUPERIOR

IS AT
175 East Water Street.

A LARGE ASSORTMENT OF CHICKERING & SONS', BOARDMAN & GRAY'S, and other celebrated Pianos for sale at Manufacturers prices, which range from

$235 to $800

according to Size, Style and Finish.

The deservedly great reputation of these Instruments has induced unprincipled men to counterfeit them, and many of their vile imitations are being offered for sale throughout the West.

The subscriber, to guard the public against imposition would state that he is the **only Agent** in this City for Chickering & Son's and Boardman & Gray's Pianos and the only person who has the *genuine article* for sale. The certificate of Agency can be seen at his Warerooms.

Old Pianos taken in part payment for new ones, and a liberal price allowed.

INSURANCE OFFICES

WISCONSIN
Home Insurance Office,
No. 6 Kneeland's Block.
MILWAUKEE, WISCONSIN, MARCH 20, 1855.

INSURANCE EFFECTED UPON DWELLING HOUSES, Stores and other Buildings, Household Furniture, Merchandise and other property, against

LOSS OR DAMAGE BY FIRE.

This is a new Company, organized the 26th of January last, on the Mutual plan, with the privilege by the charter of doing business on the Cash plan, upon either Fire or Marine risks; but to the present time its business has been confined to the Mutual system of Insurance, and the very favorable and flattering manner in which the same has been received by the Insuring Public, has induced the Directors to make it a purely Mutual Company. Besides this, it is believed that the recent failures of many of the Eastern Companies has been owing mainly to the combination of the Cash and Mutual System in one Company.

This Company commenced business with a capital of $30,000, and have already issued upwards of 250 policies; and it is believed that, with proper caution as to the selection of risks, and rigid economy in expenses, we shall soon be enabled to make this Company such a one as will generally be preferred.

The recent failures of several of the old Stock Companies, among the most prominent of which are the Protection and Columbia, although it is believed that their business was conducted in the most proper manner, has had a tendency to shake the confidence of many of the most reliable and prominent insurers in the Stock plan of Insurance, and have induced them to believe that the only safe and reliable Companies are those conducted on the Mutual principle.

As it is the design of the Directors to do a profitable, rather than a large and therefore doubtful business, the company will take none except first class risks and at such rates as are deemed fully adequate to the risk. Agents are also instructed not to take to exceed $1000 upon any one risk in Village, within a circle of a hundred feet diameter, which of course will prevent very great loss at one fire.

Applications for Insurance, respectfully solicited.

Highly Important to Farmers.
The only Exclusive Farmers' Insurance Company in the West.
THE MADISON MUTUAL,
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE RISKS upon Farm Property only, consisting of buildings of all kinds, (belonging to farmers,) household furniture, grain in barns, live stock, &c., from one to five years, at lower rates than most other responsible Companies.

All losses promptly paid at the office as soon as proof is made thereof.

We believe it to be for the interest of the farmers to insure by themselves, their property being less hazardous than any other, consequently you will have no losses, only your own of the same class, and all will be on an equal footing.

Experience has shown that two-thirds if not three-fourths of all the fires that occur are in stores, taverns, mills, shops, and such like property. In this Company all such property is rejected entirely by taking farm risks alone.

Farmers, look to your own interest, and insure in a Farmers' Company.

We have been doing business a little over three years, and we have not been obliged to assess our premium notes, and for the last *fourteen months we have not had a single dollar loss*, though doing a large and prosperous business, which we believe to be without a parallel in the history of insurance.

The best of references given as to the responsibility of the Company.

GENERAL NEWSPAPER ADVERTISING HOUSE,
No. 316 Broadway, New York.

Pure Unadulterated
BRANDIES.
DIRECT FROM THE GROWERS.

ONE OF THE PRINCIPAL AND GREAT CAUSES of the high price of brandy in this market, is the indirect source from which it is derived. Nine tenths of that imported is received from mercantile houses in Cognac, who buy of the farmers in that district and ship it to the United States, at much advanced prices, and frequently in an adulterated state. In view of these facts, and for the purpose of securing a fair price for their product, a union of brandy growers in France has been accomplished, with the view of shipment to the United States.

The name of this consolidation is the Central Society of Vineyard Proprietors of Cognac, under the "General management of a President, and the direction of a President, Vice President, and a Committee of Inspection of eight members." The society is in numbers one hundred vineyard proprietors, amongst them some of the most influential noblemen in the neighborhood of Cognac, who contribute under certain by-laws, the entire growth of their vineyards to the general fund of the society. The present capital of which is three million francs. The advantages to be obtained from this combination are so apparent as to render unnecessary any further comment on the subject; nevertheless, it may be worthy of observation that few features in this society possess a more striking claim to public attention than the fusion of interest effected between buyer and seller. Of shareholders it necessarily becomes the interest of each individual to contribute by every means in his power to uphold the reputation which the society is endeavoring to earn, for shipment of the best qualities of brandies. For this a clause is introduced in the statute (article 40) renders it imperative that shareholders shall supply the society with the very best Cognac brandies, otherwise they incur the liability of an entire forfeiture of their shares.

The undersigned, sole agents in the United States for the Central Society of Vineyard Proprietors of Cognac, would solicit the attention of merchants, hotel keepers, grocers and others to the vintages now on hand, confident that they will compare more than favorably with any article now in the market, and at prices far below the standard of even ordinary Cognacs.

A Great Cargo.

Messrs. [illegible] & Co., forwarders of this city have handed us the following statement of the cargo which they have just shipped on board the propeller Great West, for Buffalo, on account of Wm. Sanderson, and consigned to Thomas [illegible] New York. It is the most valuable cargo which has ever been shipped down the lakes:

[illegible] bacon, 490 587 lbs,	$39,247	16
[illegible] lard,	61,864	90
[illegible] mess and clear pork,	23 432	90
Total value	$121,543	16

This cargo comprises, we believe, only about one third of Mr. Sanderson's purchases for the past winter and spring.

The weight of the cargo is about 900 tons.— The Great West is to sail to-day.

Milwaukee & Mississippi Railroad.—The receipts for the first ten working days of May show a large increase over the corresponding days of last year the figures being as follows:

	1854.	1855.
Passengers,	$3 960 46	$6,739 72
Freight,	8 890 84	9,218 18
	$12 851 30	$15,951 90

The freight as well as passengers are still rapidly increasing, and as the receipts of May last year were $41,750, those of this month will doubtless go considerably over that sum.

An Old Story.

The Buffalo Republic says:

Shipping News, &c.—Mr. Noble, the popular agent of the Michigan Central Railroad Line, has put up a very neat bulletin board in his office on the dock and requires the captains, mates, clerks &c. of the boats belonging to this line to report all marine news of which they may become cognizant, including their manifests. This is an accommodation to and materially benefits the reporters of the press as well as all others interested in [illegible]. By the way we have had most wretched management thus far this season.— There is a law requiring masters of vessels to report their cargoes before breaking bulk to the Custom House, which if enforced would subject [illegible] of them to a fine. *Scarcely a single sail vessel arriving here this season has presented a correct manifest*, causing thereby a vast deal of unnecessary trouble to reporters and not a little [illegible] of those individuals on the part of [illegible].

Now will the Republic, or somebody else, suggest some method of securing *better* management? We do not doubt the truth of what the Republic says—indeed, from our own experience at this port, we know that it *must* be true, for we have seen the entries copied upon the custom house books direct from the clearance, representing the cargo, when we knew that many items of the same cargo were not named—and worse errors often occur. For instance, the schooner [illegible] is reported at our Custom House as having cleared for Buffalo, April 24th, with "[illegible] bush wheat and 216 bbls. pork," and this was contradicted by the statement of the master when taking his clearance. This identical schooner after a long trip, reaches Buffalo, and [illegible] is thus reported, from her bills of lading:

Schooner [illegible] Pardy, Albrecht, Milwaukee—[illegible] bush rye, 1,864 bush barley, [illegible]—87 bbls. beef, 820 bush rye [illegible] Willard—3,217 bush barley, Fleming & [illegible]—1,136 bush wheat, 95 bbls pork, Sterling & [illegible]—700 bush rye, 382 bush barley, 4 firkins butter 6 bags seed, Hopkins & Co.

The alleged transmutation of wheat into chess is nothing to it.

[illegible] the case of propellers arriving at upper [illegible] below. If the captain reports at all the chance is ninety-nine to one, that it [illegible] form,—" Prop. ———, 100 [illegible]," or " Prop ———, 2500 pkgs," [illegible] being arrived at by footing up [illegible] every bar of iron a "pkge." [illegible] vessel clears at the custom house, [illegible] out of port without taking a technical [illegible] at all) the chance is, particularly with propellers, that they report for their [illegible] only the heaviest item, leaving such [illegible] "50 bales of wool," or 100 bbls [illegible]," &c. &c., entirely unnoticed. And [illegible] touch at the piers only, as they go down [illegible] they will run off with 500 bbls of flour without reporting at all.

These are sober truths, within the knowledge [illegible] newspaper editor or reporter around [illegible]. But how shall it be helped? We [illegible] about it for years, and we are aware [illegible] that the collectors of this port, particularly the present ones, have endeavored to procure more accurate Reports. Collector White [illegible] written to the Department at Washington, [illegible] that instructions be given for the Lake [illegible], and the answer is that away back [illegible] some dusty volume of laws, enacted about the [illegible] the last century, before many people knew [illegible] Lake Michigan would float a long-boat, [illegible] a law which meets the case; and he is [illegible] to consult the Dist. Att'y. The latter [illegible] finds the rule of application of the law so [illegible] that he does not care to venture upon [illegible] and so we stand.

Government calls for monthly reports of the [illegible] departures, imports and exports, from [illegible] Lake ports, and gravely puts forth their [illegible] to the world as accurate statistics of [illegible], and yet steadily refuses to take any [illegible] for ensuring correctness. How can it [illegible] that the authorities at Washington [illegible] that the commerce of the Lakes is [illegible] importance than that of a thousand Cape [illegible], when it wont take pains to learn?

The Anniversaries.

We have prepared below a brief abstract of the [illegible] expenditures of the various Religious [illegible] Societies which have recently held their anniversaries in New York.— Several of the most important are not represented [illegible].

[illegible] Bible Society — Receipts—$346,000; expenses [illegible] the same.

[illegible] Tract Society —Receipts, $413,173,86; expenses $419 227,34.

[illegible] Printing Soc.—Receipts, [illegible]

[illegible] amount received by the above Societies [illegible] 953 216.

New Dress.—The Albany Evening Journal [illegible] in a new and handsome dress. The Journal is the best political paper published in New York and wields, as it ought to do, a very great influence. The editors take occasion [illegible]:

"[illegible] may be gratifying to the Patrons of the Journal to know that it was never more prosperous than at the present moment. Its Conductors will endeavor to retain the confidence of its friends."

[illegible]—In view of the fact that the Reciprocity Treaty is now in full force the [illegible] of Oswego have signed a solemn [illegible], "to receive and pay out the [illegible] Quarter Dollar for twenty five [illegible]—making no distinction between it and the American quarter"—and they recommend their fellow-citizens to adopt the same practice.

Suit Against the Steamer Sultana to recover the value of Goods burned at Higby's Pier in 1853.

Silas Chapman vs. The Steam Boat Sultana	}	In Circuit Court before Judge Hubbell.

This was a complaint under the Statute allowing complaints against boats and vessels. A quantity of goods was shipped for the plaintiff on the Boat in the fall of '53, at Buffalo, consigned to Dousman & Co., of this City. They were landed by the boat on Higby's Pier, the same night the pier was burned, and were destroyed by fire.

The three main points of defence were, first, that there was a uniform and established custom making the delivery on Higby's pier, a delivery to the consignees.

Second, an express arrangement, or understanding between Higby and Dousman & Co., making a delivery to Higby, a delivery to them.

And Third, that in the bill of lading, "*loss by fire*" was excepted.

The proof as to the custom, was to this effect —that the boats of large tonnage, had each its agent and pier, at which to land all its goods.— By a mutual understanding and custom among the warehouse-men and pier-owners, all the other consignees, sent their checking clerks there to receive their consignments. If the arrival of the boat was in the day time, the checking clerks were usually there to receive the goods as they were landed. If not, they were kept in the custody of the pier-owner, till the clerks came to receive them, which was usually as soon after the arrival as might be. The pier-owner was the agent of the boat, and had authority to detain the goods until the freight was paid by the consignees. He collected the freight of the consignees for the boat and never advanced it for them to the boat. The pier-owners charged the owners of goods with pierage usually, but by a mutual arrangement among themselves, they charged each other nothing, but each allowed the others to come and receive goods consigned to them, free from pierage, in consideration of the like privilege on their piers. It was proved that this manner of landing goods was entirely for the convenience of the boats. There was an attempt by the defendant to prove a special arrangement between Dousman & Co., who owned the South Pier, and Higby, that they would receive goods for each other, thus landed; but the proof did not extend the arrangement much, if any, beyond the general understanding among all the pier-owners.

The Court left it to the jury to say whether either by established custom or express arrangement with the consignees, the landing of the goods as shown at Higby's pier, was a delivery to the consignees, telling them if they found it was, the boat had discharged its contract, otherwise, not.

As to the exception in the bill of lading against loss by fire, the court, following the decision of the Supreme Court of New York, instructed the jury that a common carrier cannot even by a special acceptance, discharge himself of his common law liabilities as a carrier, but that all such exceptions are void as being against public policy.

The jury found a verdict for the plaintiff for $511 37.

James H. Paine & Sons for plaintiff, Brown & Ogden for defendants.

We learn that the case will either be tried again, a motion having been made for the purpose, in the same Court, or will be appealed.— The verdict seems to create considerable surprise among forwarders and owners of vessels, and well it may.

Reduction of Rail Road Fares.—The competition between the New York and Erie and the Central Rail Road has revived, and the *through* fare from Buffalo to New York, which was at first fixed at $9,00, has been reduced to $6,50, on one train, at least.

☞ The Madison *Patriot*, being short of news tries its hand at *manufacturing* items and turns out the following:

The northern Republicans, and the K. N's are, so far as the north is concerned, a unit, not only in Wisconsin but also in Iowa,

The force of —— fiction, can no further go. In Wisconsin, the K. N's are the best allies of the bogus democracy.

Capital House, Madison.—We learn from the Madison papers that this establishment has changed hands, Mr. Stevens having sold out to a Mr. Nelson, late of Chicago. The Capital House is one of the crack Hotels of our State and under good management must always make money.

Large Premium—The Joint Worm.—The Executive Committee of the Virginia State Agricultural Society has offered a premium of *One thousand Dollars* for the discovery of some efficient, practicable and generally available plan for preventing the ravages of the Joint worm.

Weather, Crops & Prices in Monroe Co., N. Y.—The Rochester *Democrat*, of Saturday last, the 12th instant, contains the following paragraph:

The Weather continues fine for the growing crops, and for all things, Owing to the heavy rains of last Tuesday, the farmers are able to plow only their high and dry lands, and produce has again been brought in freely. Hay, particularly, has been offered largely, and it declined in price. But little corn and oats remain in this section, and until they begin to come in from the West, prices will rule high. Probably the farmers in this section never before obtained one dollar per bushel for corn and five shillings for oats, as now. Wheat has sold as high as $2,62½, which is also a higher price than ever before paid. Millers are making up their minds that Genesee wheat is about exhausted, and that the amount still to come from Canada is quite small.

Ministers Driven from Platte County by the Atchison Bandits!

ARRIVAL OF REV. MR. STARR FROM WESTON!

The Rev. F. Starr, Jr., of the Presbyterian Church, who has been in Platte county, Mo., for three years past, engaged in preaching, arrived here yesterday, having been obliged suddenly to leave his charge, on being notified by fanatical pro-slavery men that he must leave the place within two days, or suffer the consequences. He defied the murderous gang, but concluded that it was better to avoid violence, and departed out of that land, shaking the dust from his feet.

Thus the threat made at Parkville, which is only thirty miles distant from Weston, where Mr. Starr was located, has been carried out, and made applicable, not only to Methodist, but to Presbyterian ministers. Shall these things be, and not arouse the indignant protest of the people of the Free States!—[Rochester (N. Y.) Democrat.

Depere.—We visited that place a few days since, and found business lively and improving. Depere is a flourishing town, situated on Fox River, five miles above this place. The River is navigable for the largest sized boats to that point. The first dam across the river is there, which creates a large amount of water power, which is occupied by a flouring mill, several saw mills, a shingle factory, &c. There are several large dry goods stores, a number of grocery and and provision stores, two or three good taverns and almost all kinds of mechanics' shops, all of which seemed to be doing a prosperous business. There is a large surplus of water-power that can and ought to occupied for manufacturing purposes. We cannot see any reason why it would not be a better location for cotton and woolen factories than any in the New England States. Boats could be loaded at the cotton plantations in the South, and unloaded at the factory in Depere, and wool could be easily gathered from all portions of the Northern States. And there is a home market for the goods, when manufactured, at prices at least 20 per cent higher than can be obtained in the Eastern States, and yet sold to the consumer at prices less than at present paid. Besides, Depere is surrounded by a good farming country, and in a little time it will supply itself with every kind of agricultural products. It possesses greater advantages than any other towns on Fox River, and at no distant day, it will be the Lowel of the West.—[Ft Howard Era.

The Bombardment of Sebastopol—How it Commenced.

From the London Times' correspondent.

On the day previous to the commencement of the bombardment, which was Easter Sunday, the Protestant and Roman Catholic services of the army chaplains in the English Camp were most numerously attended. In the French Camp, also, the duties of religion were attended to in the morning, after which, with both French and English labors of a besieging force went forward, as on other days. An immense quantity of shot and shell was sent up, with one 13-inch mortar and one 84-pounder, both for the batteries on the right attack.

In the afternoon a message was sent down to the Sailors' Camp to tell off the men to their guns and have everything in readiness to begin the final attack at daybreak. It is represented that one of the Sailors' batteries still wanted three or four guns, but, in return to this statement, Lord Raglan replied that it was of no consequence, and that the batteries must all be ready to open next morning. At a late hour the troops detached to guard the trenches were ordered to take their rations cooked with them, to save the exposure which would otherwise be incurred by men carrying them in the daytime. The ambulance-cars were also ordered to wait for wounded in the several ravines, and an order was sent down to Balaklava for 600 stretchers for wounded, which, with 200 extra tents for emergencies, were forwarded per rail.

Throughout the night there was very little firing on either side. Beyond an occasional gun to keep up the appearance of war, and take away the slight sense of security which sometimes exists in the trenches, all was quiet. All in the Allied Camps knew that the bombardment would commence at daybreak, and so all were full of regrets and forebodings over the change in the weather. It had, indeed, changed in a manner sufficiently severe to excite anxiety, if not mistrust, as to the result of the first day's operation. The wind blew a regular gale; the night was at once dark and misty—while the rain fell in such floods as almost to surpass every sound. Towards morning, it was if possible, still more unfavorable, and, in spite of the rain, the wind was sufficiently strong to leave in all but faint hopes that the fleet would be able to share in the struggle of the day. At 4 o'clock, A. M., all the officers who had leave were on the alert, looking up waterproofs and forgotten mufflers before setting out for Cathcart's Hill, to see our opening fire. At this hour, nearly all, except the sentries, were asleep, nor was there anything whatever to denote that one of the most bloody struggles that ever disturbed the world, or defaced the annals of civilization, was about to commence.

A heavy mist hung over the sea, and partly over Sebastopol, while both were obscured, every now and then, by the clouds of rain which were driven before the wind. The north side was almost completely invisible, though the mouth of the harbor was clear, and a heavy sea running in, broke in a wild line of breakers over the sunken ships. In Sebastopol itself, everything was quiet and calm as usual. Where the head of the harbor could be seen, two or three large boats seemed crossing it near the land, but no other signs of activity were visible, either in the water or in the town. It was now five o'clock; none of the clocks in Sebastopol could be heard to strike, as the wind was very strong, and blowing up the harbor and across the town. Each moment the weather became thicker and more wet, so that in a few minutes hardly any of the town was visible. The grim line of batteries, however, remained well in view, though they also seemed as quiet as inside the walls.— In the Malakoff a few soldiers could occasionally be distinguished in the embrasures, and then between it and the Mamelon, but this was all.

Suddenly, at a quarter past five o'clock, A. M., a gun was fired from our right attack. In a second afterwards, running up and down the line— from the little mounds and hillocks near Inkerman—from the broad commanding positions of Green Hill and Gordon's Batteries—from quiet picturesque ravines, where no one dreamt of guns lurking—high from the rear on steep and lofty ridges, and away down to the left, where, the French works stretch out—over low marsh lands to Kamiesch—from every point of— our lines came a hundred streaks of flame and masses of smoke. For a minute after there was silence, and then the great concussion came rumbling on, slowly mastering both wind and rain, and swelling into a roar that seemed to shake both heaven and earth. The shells and bullets of the first discharge made of themselves a perfect uproar, as they fell like an iron hail full upon the enemy's batteries. Some shot were short and went bounding towards the works, scattering the earth like water. Some were too high, and passed clear over everything into the town; but the great mass were well aimed and true, and passed full into the embrasures, clearing all before them.

The shells burst everywhere about like crackers, and the stunning explosion of the great mortars made themselves conspicuous over every other noise, as the huge bombs screamed through the air, carrying death and destruction into the Mamelon and Malakoff. After this first tremendous volley each gun worked as it could, and a regular file fire of mortars and heavy guns commenced upon the place. The enemy appeared completely surprised. With the first awful salvo a general confusion was observed in their batteries. For three or four minutes not a gun replied —then the Mamelon fired three or four at once, and the Redan and Malakoff also began a slow irregular cannonade. The Flagstaff Battery was also quick in sending two or three shells, but the great mass of the guns in all the Russian works were silent. Gradually, after a lapse of five or ten minutes, their fire extended—but, before half their ordnance was manned, ours had fired a dozen rounds, so that some of the enemy's guns were struck before they fired a shot, and past all manning. It was nearly six o'clock before all their works were in full play, and then each battery, pelting against its assailant, fell to business in earnest.

The Late Mr. Van Dyke.—The Detroit *Catholic Vindicator* furnishes the following facts respecting Mr. Van Dyke's last illness:

"Although Mr. Van Dyke had been somewhat indisposed for some weeks, yet the symptoms of illness were not of a character to excite any apprehensions, and he was in fact quite convalescent from his first attack, when the epidemic of measles bereaved him of two young lambs of his flock, which so deeply grieved his sensitive and tender affections as to again interrupt his perfect recovery. This temporary shock, however, had passed, and he was regarded as almost re-established in his ordinary health, so much that, on the Friday preceding his death, he, in fulfillment of an intention long entertained, presented himself for administration into the Church, and had the sacrament of baptism conferred upon him at the Font of St. Ann's by the Rt. Rev. Bishop. On Sunday alarming symptoms again re-appeared, that baffled all that medical skill could suggest, and after receiving all the last sacraments and consolations of the church from the Right Rev. Bishop, calm, collected, tranquil and resigned, he departed to appear before the throne of Him who made him.

Improvements at Beaver Dam.—The Beaver Dam *Republican* of the 11th instant says:

Messrs. Rose & Bogert have purchased the corner lot opposite the Empire Block, and in connection with A. Loomis Esq., have contracted for the immediate erection of a Brick Block, 4 stories high and 90 feet deep. The plans are now being made by Messrs. Mygatt & Schmidtner, of Milwaukee, and are of the most improved modern style of Architecture. The Dodge County Bank of Messrs. Rose & Bogert is to occupy the corner. The three remaining stores are already leased—the store adjoining the Bank to a large Book concern—the next adjoining to J. W. Robinson & Co., as a Drug House, which we will venture to say will not be surpassed in this State. The remaining tenement is to be occupied by C. Chadwick, Esq., of Madison, as a heavy Dry Goods House. The block is to be completed the 1st September.

"Improvement" Company's Improvements.— The Fox River Improvement Company are making extensive improvements at their depot, half a mile above his place on the west side of the river. They have erected a warehouse 40 by 80 feet, two stories high. They are also erecting a grain store house with elevators, 50 by 80 feet, four stories high. Their dock extends 275 feet into the river, with 170 feet front. These works are under the direction and supervision of Mr. O W. Clark, an experienced mechanic, who is making rapid progress with them, and will have everything completed and in order for the fall business.

M. Callaghan has a steam tug on the stocks, at his ship-yard, which he is building for the Company, and which he intends to launch in a few days. The machinery is ready to be put in as soon as she is launched. The tug will be ready for business in a short time.—[Fort Howard Era.

Lead Mining in Dane County.—Mr. Ebenezer Brigham of Blue mounds, in this county, has recently commenced working anew the lode discovered by him many years ago. Some New York men have interested themselves in it; a new shaft has been sunk; and pumps worked by steam are used in the mine. The deposits is a very rich one. A great quantity of mineral was raised there formerly, and the mine under the new arrangement promises to be even more remunerative than ever.—[Madison Journal.

The West Going East.—It is a fact worthy of note that the first locomotive that reached Racine on the Lake Shore Railroad was built at Milwaukee. This is only the beginning, and the time is not far distant when the West will supply the East with produce and manufactures, when the great exciting question will be. "What are the Western news?" Hurry up that Pacific railway.— [Madison Patriot.

CITY MATTERS.

POLICE COURT.--May 16.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

A. H. Johnston was tried for an assault and battery upon Cornelius Washington, and found not guilty. The evidence showed a great deal of forbearance on the part of the defendant, repeatedly telling the complainant to leave his premises, and when he refused then attempting to eject him.

Charles Reed, who was arrested a day or two since for beating his wife when drunk, and committed to jail, was brought down for trial in the morning. The matter was finally settled by the defendant paying the costs—he claiming that his wife struck him first, and that what beating he gave her, was in self-defence.

Board of Health.—A special meeting of the Common Council is to be held this evening to organize the Board of Health. It is full time that the Board were at work and proper measures taken for the thorough cleansing of the City.— With the immense influx of new comers, this Spring, more or less of sickness may fairly be expected, but with due care and diligence on the part of the Board of Health, the general health of the city can be preserved. The work of purification, however, must be done up thoroughly, and the Ordinances against nuisances, the deposit of filth in the streets, &c., rigidly enforced. Otherwise, should the summer prove hot and dry, we cannot escape considerable sickness. Let the Board of Health, therefore, go to work without delay, and having had the city thoroughfares well cleansed, serve them with a good coat of lime.

Rehearsal.—The Company formed by Mr. Otto Reppius for his musical entertainments, hitherto announced, gave a private rehearsal on Tuesday evening. We were unable to be present till late, but from our previous knowledge of the performers, and from such portion of the pieces as we heard, we can very cheerfully endorse the following remarks of the *Free Democrat* of last evening:

It was glorious music, such as we have seldom heard equalled, and we only wish all the lovers of good music could have heard it. Mr. Reppius showed himself a superior leader, and thoroughly qualified to conduct successfully such an orchestra, imparting to each performer his own enthusiasm.

We learn that another rehearsal will be given, on Tuesday evening next, for the friends of the performers, and a public concert soon afterwards.

Mr. Reppius has exhibited fine taste in the selection of his party, and we cannot doubt that the entertainments which he proposes to furnish will be highly popular, and successful.

City Ordinances and their Enforcement.

Whatever may be said in favor of the Charter and Ordinances under which this city is said to be governed, it is certain that the enforcement of the Ordinances is shamefully neglected, and the stranger who comes here will be sadly disappointed if he expects to find good order prevailing.

From the moment he lands, instead of finding special constables to preserve order—whether his debarkation takes place upon the platform of the Railroads, or the steamboat Pier—his head will ring with innumerable echoes of runner's bawls —the drum of his ear will be transformed into a daguerreotype plate, to receive impressions of the "Walker House," "Miner's Arms," "Mexican House," "Baltic House, gelm'n," "Oro-se Key," "Cab for any part o' the city," "Central Hotel," "Davis'-Line-for-the-Boats," "Private-Carriage-right-here-ma'm," "Would'nt you like to go to the St. Clair House?" the whole tapering off by a boy in the back-ground, shouting "Eastern 'Otel; the whole of the yelling appearing more like a test of the capacity of the lungs of the bawlers than anything else.

If accompanied by a lady, the traveller will be fortunate indeed if he can get her through the crowd without having to drag her with some force, as the idea of keeping a passage way clear for females has not as yet taken lodgings in the brains of the specials. It is only with the greatest difficulty, accompanied with no slight knowledge of inland navigation, through boxes, coach whips, runners, hack and cab-men, that a lady can be got with safety to her dress, from the docks of a steamboat to the end of a pier, or from the railroad car to the omnibus, carriage or cab, that takes her to the point of destination. If, on the traveller's arrival, he should scan the crowd closely, at the pier for instance, he might by a mere possibility, detect an official—a very good natured looking kind of a man, with face somewhat indicative of good living and a plentiful supply of malt beverage; with a mind perfectly tranquil amid the hurricane of noises around him; and an equanimity not in the slightest disturbed by the din of the runners' vocal artillery. This is the special representative of the city, and this is about all the stranger will see of him, except by chance some runner or hack-man &c., should happen to tread on his toe—he is tender-footed —he will then discover that he "lives and moves and has his being;" and he will keep moving till the pain in his corns subsides.

At the cars the scenes are on a par with those daily enacted at the piers. The instant the wheel of the brakes takes its backward turn, and at the moment the square-toed boot of the first passenger greets the platform, the din of Babel commences, the name of every house in town is yelled out at the highest pitch accorded by nature and free exercise to the human voice. The platform in another moment is crowded, choked up, becomes utterly impassable for ladies, and those ladies who happen to be without protector are compelled to remain in the cars till the hurricane has subsided, and order restored to Warsaw.

Here the passenger may see by looking sharp or he may have pointed out to him by others, in the dimness of the distance, a tall, gentlemanly looking man, neatly attired in black, and bearing a striking resemblance to a London mute, as the representative of a city of forty thousand inhabitants, to preserve order at the cars. But for what purpose this gentleman attends the cars so regularly, he would have been at a loss to discover, but for "information derived." He might have thought him a retired citizen, paying daily visits to the platform to admire the wonderful power of steam as it propelled the locomotive, or he might have thought him a mechanic, attempting the invention of a machine for suddenly stopping the cars from running, or making visits to the trains to inspect the workings of the eccentric. Conjecture might follow conjecture, but no passenger or sensible man, uninitiated in the mysterious intricacies of C. C. elections, would for a moment suppose that this quiet, well-behaved, patient, immovable pattern of dignified humanity, was a special policeman, sent there and paid a good salary by the tax-payers of Milwaukee to prevent noise and confusion, to preserve order, and give the city the appearance of a civilized people in the eyes of strangers from other lands, or other portions of this land. But besides these we have two other officers whose sworn duty it is to see that the Ordinances of the city are enforced, and although one of them may be seen "on a train," the other we have never seen at the cars on their arrival, or at the landing of passengers from steam boats. Here ends the first lesson on City Ordinances and their enforcement.

Jumped Overboard.—A man, said to be a native of Lancashire, England, jumped overboard, and was drowned, from the steamer *Arctic*, immediately after her leaving the pier on Tuesday afternoon. It appears that he made two attempts to jump into the lake between Chicago and here.— We were unable to learn his name.

The Mammoth Grape Man.—We were informed yesterday that the Mammoth Grape Man's pre-emption near Van Cott's Corner would expire at noon to-day. We understand that arrangements have been made to take his daguerreotype before leaving town, he offering unusual facilities for that purpose, by his steady position.

The Schooner Bay State.—We had the pleasure, yesterday, of inspecting this fine craft, of which our Buffalo exchanges have said so many good things. Capt. Wm. D. Robinson, well known in our port, and who commanded the brig *Greyhound* last year, now walks the decks of the *BayState*, and is wonderfully proud of his vessel. And well he may be, for she is, all in all, the best built sailing craft which has ever come into our port. The stern is decked over, making a convenient and pleasant cabin, sleeping accommodations and kitchen. Going down into the hold, we found that she is built for heavy seas, being strengthened by heavy oak plank laid in arches, and by tamarack knees.— The timbers and plank are unusually massive and heavy, while her model is fine, and she sails like a witch. She is fitted with all the modern improvements of patent capstan, winch for managing the centre board, and steering apparatus.

The *Bay State* is the first sail vessel in from Buffalo this season, and brings a large cargo of seasoned lumber. She is 344 tons register, cost $15,500, and is a credit to her builders, Messrs. B. & F. Jones, of Buffalo.

Handsome Carriage.—We saw yesterday, at the livery stables of S B. & J. Davis, one of the handsomest carriages we remember to have seen in any country. It had just arrived from the carriage factory of Whitbock & Jones, New York. The inside trimmings are elegant, of a light drab color on worked carriage broad cloth. The style of the carriage is an open or closed Barouche, as may be desired; its cost is nearly a thousand dollars, and following either of the fancy teams of this livery stable, will form a turnout fit for a millionaire. It can be seen at the carriage house opposite the Milwaukee House.

Weather.—After a hot day Tuesday, rendering ordinary dress uncomfortable, the wind changed around and yesterday it was cold enough for Greenland. Last night, there was every prospect of a frost. It would be a bitter thing for the fruit, as the trees are all in blossom.

Real Estate.—J. H. Crampton offers for sale some very desirable property lying on one of the best plank roads, very near the city. See his advertisement for particulars.

Damaged Goods.—Rooney gives notice of a large sale of goods, to come off soon. Make a note of it.

More Damaged Goods.—Wall proposes to sell at auction shortly, some $40,000 worth of goods, damaged on the propeller *Niagara*. See advertisement.

A Novel Cargo.—The schr. *M, L. Collins* arrived yesterday from Sackett's Harbor, bringing about 100 emigrant passengers, comprising quite a number of families, with horses, cattle, household furniture, luggage, &c. This is the first arrival of the kind.

Circuit Court.—In the Circuit Court yesterday, Eli Ramspech was tried for stealing a gold ring, of the value of $1,25, the property of Julius F. Webber; found guilty and sentenced to the State Prison for one year.

Aground.—The propeller *Saginaw*, from Buffalo, which lay hard aground for some 24 hours or more near the mouth of the river, having got off came up the river last evening.

☞ The steamer *Traveller* arrived from Chicago yesterday afternoon with 380 passengers, a good load of freight and seventeen horses.

Vessel Sale.—Messrs. H. H. Harrison and A. R. Chapin of this city, have purchased the brig *Helfenstein*, seven years old, for $6,800.

A Spirited Editor.

G. W. Brown, of the Kansas Herald of Freedom, is one of the most independent editors in the West. He is said to stand six feet in his boots, and his entire personal appearance argues great resolution to carry out his purposes. Hear how he talks about the Parkville mob, and the threats that have been made against him:

A Free Press.—It was said by the rioters in Parkville last Saturday that the destruction of the Luminary office was designed as an example to others, and it was very knowingly hinted that ours will meet a similar fate. Very well, we have concluded to give any number of persons who wish to perpetrate such an act of folly on us a free pass to "kingdom come," and we pledge them every assistance in our power.— Probably they never took an upward journey, and would like to try the experiment of sailing on a blaze of glory, such as a couple of kegs of gunpowder, exploded at the opportune occasion, would furnish.

We have not a member in our family, ourself included, who would not deem a transit into the future life, with *campagnous du voyage* of a goodly number of printing press destroyers, as a favor rarely to be met with. Should the Herald of Freedom Office at any time be invaded for the purpose of destruction, we give this timely warning to all, both friend and foe, that unless they wish to "go up" they had better keep aloof from its immediate vicinity, for our purpose is fixed, and the consequences cannot be prevented.

We have prepared a duplicate copy of our subscription books, and that subscribers may not be losers by any contingency which may arise, we hereby authorize and depute our esteemed friend and General Agent, H. A. Billings, Esq., to resume the publication of the Herald of Freedom, should it be suspended by violence, at such point as he may designate, and we further donate to him our entire effects in Kansas, Pennsylvania or elsewhere, to prosecute the publication of such paper, with this one condition, that he shall give the advocates of slavery particular "Jesse" during the balance of his life.

To the Settlers on the Even Sections.

Those Settlers on such of the "Even Sections" as were selected and advertised some months since, and who paid the Company for their lands, will be pleased to hear that their Deeds will be ready for them before the close of the month—the necessary releases from the bondholders having been duly executed the last week in April.—[Appleton Crescent.

☞ We are gratified to learn that our distinguished townsman, H. H. Emmons, Esq., who has been seriously ill for several days, is now considered out of danger, and that his speedy recovery is confidently anticipated.—[Detroit Tribune May 14.

MARINE INTELLIGENCE.

Steamer through the "Soo" Canal.—The Cleveland *Herald* of Saturday, 12th, announces the important intelligence that the steamer *Illinois*, Capt. Wilson, who commanded the steamer *Empire State* last season, will on her next trip to the Upper Lakes, pass through the Sault Ste Marie Canal into Lake Superior, and pay a visit to Fond du Lac at the head of that inland sea, to which place she is to run regularly during the season. Large parties have made arrangements to go up with him.— There is no obstruction to navigation on Lake Superior, but no boat had arrived from Ontonagon at the Saut.

More New Vessels at Buffalo.—Messrs. Bidwell & Banta are now building, at their yard in the Creek, a large first-class propeller, of 700 tons, and a schooner of 350 tons, both to be out some time in August. The latter vessel is building for Alexander Smith.

Steamer Queen City.—This steamer arrived on Saturday from Erie. She has been re-painted and thoroughly repaired for the season's campaign. Her cabins and state rooms are very elegantly fitted up, and she will shortly leave for Chicago and thence to Collingwood to take her place in that line.—*Buffalo Com* 13th.

New York Money Market.

The N. Y. *Evening Post* of Saturday says:

The aspects of the money market are without change. The supply, which is increasing, already far exceeds the demand, which is decreasing. New enterprises are mostly shunned, but falling rates of interest will insure in time more activity in the securities of acknowledged intrinsic value. The discount rates range from 5½ to 7 ₩ cent. viz:

MEXICAN MUSTANG LINIMENT.

From rich and poor, bond and free—all grades, colors and conditions, the same meed of praise is irresistably given to this wonderful preparation. Thousands of bottles are *sold and used daily*, and but one universal opinion is uttered by all who use it, and that is, that no remedy ever before discovered, possesses such perfect healing and curative properties. *It acts like magic* in relieving pains of any kind, no matter by what caused, or how excruciating—sprains, dislocation of joints, bruises, cuts, burns, scalds, ulcers, cancers, rheumatism, piles, caked breasts or any pain, soreness, stiffness, or weakness of joints, muscles or ligaments. The Liniment is equally applicable and equally effectual in giving immediate relief. Try it.

Holloway's Ointment and Pills, the most efficacious Remedies in the Union for the cure of Erysipelas. Emma Henderson, of Fourth st., Philadelphia, was a very severe sufferer for two years with the Erysipelas; she became almost blind and deaf with the severity of the disease, so bad was the attack; she consulted several of the Doctors in her neighborhood, but they did her no good. She finally determined to have recourse to Holloway's Ointment and Pills, and by the joint use of these two remedies, she was cured in six weeks, after every other treatment had failed. my16 d&w

THE GOOD SAMARITAN.

A little girl crossing Broadway, above the mound, a day or two ago, was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. Whilst some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man, "I never knew it to fail—I always carry a bottle in my pocket;" and so he does. —*St. Louis Intelligencer.*

VOLUME XI. MILWAUKEE DAILY SENTINEL. NEW SERIES.

THE DAILY SENTINEL.

Rufus King, Wm. E. Watson & John S. Fillmore, PROPRIETORS, UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

Thursday Morning, May 17.

A Great Cargo.

Messrs. [illegible] & Co., forwarders of this city have handed us the following statement of the cargo which they have just shipped on board the [illegible] Great West, for Buffalo, on account of [illegible], and consigned to Thomas [illegible] New York. It is the most valuable cargo [illegible] has ever been shipped down the lakes:

[illegible] Bacon, 430 587 lbs,	$39,247 16
[illegible] lard,	61,864 00
[illegible] mess and clear pork,	23 432 00
Total value	$121,543 16

This cargo comprises, we believe, only about one third of Mr. [illegible]enderson's purchases for the past winter and spring.

The weight of the cargo is about 900 tons.— The Great West is to sail to-day.

MILWAUKEE & MISSISSIPPI RAILROAD.—The receipts for the first ten working days of May show a large increase over the corresponding days of last year, the figures being as follows:

	1854.	1855.
Passengers,	$3 960 46	$6,739 72
Freight,	8 890 84	9,218 18
	$12 851 30	$15,951 90

The freight as well as passengers are still [illegible], and as the receipts of May last year were $41,550, those of this month will [illegible] go considerably over that sum.

An Old Story.

The Buffalo Republic says:

"[illegible] News, &c.—Mr. Noble, the popular agent of the Michigan Central Railroad Line, has [illegible] a very neat bulletin board in his office on the dock and requires the captains, mates, clerks [illegible] of the boats belonging to this line to report all marine news of which they may become cognizant, including their manifests. This is an [illegible] and materially benefits the reporters [illegible] the press as well as all others interested in [illegible]. By the way we have had most wretched management thus far this season.— There is a law requiring masters of vessels to report their cargoes before breaking bulk to the Custom House, which if enforced would subject [illegible] to a fine. Scarcely a single [illegible] arriving here this season has presented a [illegible] effect, causing thereby a vast deal of unnecessary trouble to reporters and not a little [illegible] of those individuals on the part of [illegible]."

Now will the Republic, or somebody else, suggest some method of securing better management? We do not doubt the truth of what the Republic says—indeed, from our own experience [illegible] port, we know that it must be true, for we have seen the entries copied upon the custom house books direct from the clearance, representing the cargo, when we know that many items of the same cargo were not named—and worse [illegible] often occur. For instance, the schooner [illegible] is reported at our Custom House as having cleared for Buffalo, April 24th, with [illegible] bush wheat and 216 bbls. pork," and this was uncorroborated by the statement of the master [illegible] his clearance. This identical schooner after a long trip, reaches Buffalo, and [illegible] reported, from her bills of [illegible]:

"[illegible] Pardy, Albrecht. Milwaukee— [illegible] pork, 1[illegible] bush rye, 1,864 bush barley, [illegible]—[illegible]7 bbls. beef, 820 bush rye [illegible] & Wi[illegible]—3,217 bush barley, Fleming & [illegible]—1,130 bush wheat, 95 bbls pork, Stern[illegible] & [illegible]—100 bush rye, 382 bush barley, 4 firkins butter, 6 bags seed. Hopkins & Co."

[illegible] alleged transmutation of wheat into cheese [illegible] nothing [illegible]. [illegible] the case of propellers arriving at upper [illegible] below. If the captain reports at all the chance is ninety-nine to one, that it [illegible] form,—" Prop. ———, 100 [illegible]," or " Prop ———, 2500 pkgs," [illegible] being arrived at by footing up [illegible] every bar of iron a "pkge." [illegible] vessel clears at the custom house, [illegible] out of port without taking a technical [illegible] at all) the chance is, particular[illegible] propellers, that they report for their [illegible] only the heaviest item, leaving such [illegible] 50 bales of wool," or 100 bbls [illegible]," &c. &c., entirely unnoticed. And [illegible] touch at the piers only, as they go down[illegible] they will run off with 500 bbls of flour without reporting at all.

[illegible] are sober truths, within the knowledge [illegible] every newspaper editor or reporter around [illegible]. But how shall it be helped? We [illegible] about it for years, and we are aware [illegible] the fact that the collectors of this port, particularly the present one, have endeavored to procure more accurate Reports. Collector White [illegible] written to the Department at Washington, [illegible] that instruction be given for the Lake [illegible], and the answer is that away back [illegible] volume of laws, enacted about the [illegible] the last century, before many people knew [illegible] Lake Michigan would float a long-boat, [illegible] a law which meets the case; and he is [illegible] to consult the Dist. Att'y. The latter [illegible] the rule of application of the law so [illegible] that he does not care to venture upon [illegible] and so we stand.

Government calls for monthly reports of the [illegible] departures, imports and exports, from [illegible] Lake ports, and gravely puts forth their [illegible] to the world as accurate statistics of [illegible], and yet steadily refuses to take any [illegible] for ensuring correctness. How can it [illegible] that the authorities at Washington [illegible] that the commerce of the Lakes is [illegible] importance than that of a thousand Cape [illegible], when it wont take pains to learn?

The Anniversaries.

INTERESTING LAW SUIT.

Suit Against the Steamer Sultana to recover the value of Goods burned at Higby's Pier in 1853.

Silas Chapman vs. The Steam Boat Sultana	In Circuit Court before Judge Hubbell.

This was a complaint under the Statute allowing complaints against boats and vessels. A quantity of goods was shipped for the plaintiff on the Boat in the fall of '53, at Buffalo, consigned to Dousman & Co., of this City. They were landed by the boat on Higby's Pier, the same night the pier was burned, and were destroyed by fire.

The three main points of defence were, first, that there was a uniform and established custom making the delivery on Higby's pier, a delivery to the consignees.

Second, an express arrangement, or understanding between Higby and Dousman & Co., making a delivery to Higby, a delivery to them.

And Third, that in the bill of lading, "*loss by fire*" was excepted.

The proof as to the custom, was to this effect —that the boats of large tonnage, had each its agent and pier, at which to land all its goods.— By a mutual understanding and custom among the warehouse-men and pier-owners, all the other consignees, sent their checking clerks there to receive their consignments. If the arrival of the boat was in the day time, the checking clerks were usually there to receive the goods as they were landed. If not, they were kept in the custody of the pier-owner, till the clerks came to receive them, which was usually as soon after the arrival as might be. The pier-owner was the agent of the boat, and had authority to detain the goods until the freight was paid by the consignees. He collected the freight of the consignees for the boat and never advanced it for them to the boat. The pier-owners charged the owners of goods with pierage usually, but by a mutual arrangement among themselves, they charged each other nothing, but each allowed the others to come and receive goods consigned to them, free from pierage, in consideration of the like privilege on their piers. It was proved that this manner of landing goods was entirely for the convenience of the boats. There was an attempt by the defendant to prove a special arrangement between Dousman & Co., who owned the South Pier, and Higby, that they would receive goods for each other, thus landed; but the proof did not extend the arrangement much, if any, beyond the general understanding among all the pier-owners.

The Court left it to the jury to say whether either by established custom or express arrangement with the consignees, the landing of the goods as shown at Higby's pier, was a delivery to the consignees, telling them if they found it was, the boat had discharged its contract, otherwise, not.

As to the exception in the bill of lading against loss by fire, the court, following the decision of the Supreme Court of New York, instructed the jury that a common carrier cannot even by a special acceptance, discharge himself of his common law liabilities as a carrier, but that all such exceptions are void as being against public policy.

The jury found a verdict for the plaintiff for $511 37.

James H. Paine & Sons for plaintiff, Brown & Ogden for defendants.

We learn that the case will either be tried again, a motion having been made for the purpose, in the same Court, or will be appealed.— The verdict seems to create considerable surprise among forwarders and owners of vessels, and well it may.

REDUCTION OF RAIL ROAD FARES.—The competition between the New York and Erie and the Central Rail Road has revived, and the *through* fare from Buffalo to New York, which was at first fixed at $9,00, has been reduced to $6,50, on one train, at least.

☞ The Madison *Patriot*, being short of news tries its hand at *manufacturing* items and turns out the following:

The northern Republicans, and the K. N's are, so far as the north is concerned, a unit, not only in Wisconsin but also in Iowa.

The force of —— fiction, can no further go. In Wisconsin, the K. N's are the best allies of the bogus democracy.

CAPITAL HOUSE, MADISON.—We learn from the Madison papers that this establishment has changed hands, Mr. STEVENS having sold out to a Mr. NELSON, late of Chicago. The Capital House is one of the crack Hotels of our State and under good management must always make money.

LARGE PREMIUM—THE JOINT WORM.—The Executive Committee of the Virginia State Agricultural Society has offered a premium of *One thousand Dollars* for the discovery of some efficient, practicable and generally available plan for preventing the ravages of the Joint worm.

WEATHER, CROPS & PRICES IN MONROE CO., N. Y.—The Rochester *Democrat*, of Saturday last, the 12th instant, contains the following paragraph:

THE WEATHER continues fine for the growing crops, and for all things. Owing to the heavy rains of last Tuesday, the farmers are able to plow only their high and dry lands, and produce has again been brought in freely. Hay, particularly, has been offered largely, and it declined in price. But little corn and oats remain in this section, and until they begin to come in from the West, prices will rule high. Probably the farmers in this section never before obtained one dollar per bushel for corn and five shillings for oats, as now. Wheat has sold as high as $2,62½, which is also a higher price than ever before paid. Millers are making up their minds that Genesee wheat is about exhausted, and that the amount still to come from Canada is quite small.

Ministers Driven from Platte County by the Atchison Bandits!

ARRIVAL OF REV. MR. STARR FROM WESTON.

The Rev. F. Starr, Jr., of the Presbyterian Church, who has been in Platte county, Mo., for three years past, engaged in preaching, arrived here yesterday, having been obliged suddenly to leave his charge, on being notified by fanatical pro slavery men that he must leave the place within two days, or suffer the consequences. He defied the murderous gang, but concluded that it was better to avoid violence, and departed out of that land, shaking the dust from his feet.

Thus the threat made at Parkville, which is only thirty miles distant from Weston, where Mr. Starr was located, has been carried out, and made applicable, not only to Methodist, but to Presbyterian ministers. Shall these things be, and not arouse the indignant protest of the people of the Free States!—[Rochester (N. Y.) Democrat.

DEPERE.—We visited that place a few days since, and found business lively and improving. Depere is a flourishing town, situated on Fox River, five miles above this place. The River is navigable for the largest sized boats to that point. The first dam across the river is there, which creates a large amount of water power, which is occupied by a flouring mill, several saw mills, a shingle factory, &c. There are several large dry goods stores, a number of grocery and and provision stores, two or three good taverns and almost all kinds of mechanics' shops, all of which seemed to be doing a prosperous business. There is a large surplus of water-power that can and ought to occupied for manufacturing purposes. We cannot see any reason why it would not be a better location for cotton and woolen factories than any in the New England States. Boats could be loaded at the cotton plantations in the South, and unloaded at the factory in Depere, and wool could be easily gathered from all portions of the Northern States. And there is a home market for the goods, when manufactured, at prices at least 20 per cent higher than can be obtained in the Eastern States, and yet sold to the consumer at prices less than at present paid. Besides, Depere is surrounded by a good farming country, and in a little time it will supply itself with every kind of agricultural products. It possesses greater advantages than any other towns on Fox River, and at no distant day, it will be the Lowel of the West.— [Ft Howard Era.

ASSISTANT SECRETARY OF STATE.—Mr. William Hunter, the chief clerk in the State Department, has been temporarily appointed to succeed Mr. A. Dudley Mann (resigned) as Assistant Secretary of State. The Bombardment of Sebastopol—How it Commenced.

From the London Times' correspondent.

On the day previous to the commencement of the bombardment, which was Easter Sunday, the Protestant and Roman Catholic services of the army chaplains in the English Camp were most numerously attended. In the French Camp, also, the duties of religion were attended to in the morning, after which, with both French and English labors of a besieging force went forward, as on other days. An immense quantity of shot and shell was sent up, with one 13-inch mortar and one 84-pounder, both for the batteries on the right attack.

In the afternoon a message was sent down to the Sailors' Camp to tell off the men to their guns and have everything in readiness to begin the final attack at daybreak. It is represented that one of the Sailors' batteries still wanted three or four guns, but, in return to this statement, Lord Raglan replied that it was of no consequence, and that the batteries must all be ready to open next morning. At a late hour the troops detached to guard the trenches were ordered to take their rations cooked with them, to save the exposure which would otherwise be incurred by men carrying them in the daytime. The ambulance-cars were also ordered to wait for wounded in the several ravines, and an order was sent down to Balaklava for 600 stretchers for wounded, which, with 200 extra tents for emergencies, were forwarded per rail.

Throughout the night there was very little firing on either side. Beyond an occasional gun to keep up the appearance of war, and take away the slight sense of security which sometimes exists in the trenches, all was quiet. All in the Allied Camps knew that the bombardment would commence at daybreak, and so all were full of regrets and forebodings over the change in the weather. It had, indeed, changed in a manner sufficiently severe to excite anxiety, if not mistrust, as to the result of the first day's operation. The wind blew a regular gale; the night was at once dark and misty—while the rain fell in such floods as almost to surpass every sound. Towards morning, it was if possible, still more unfavorable, and, in spite of the rain, the wind was sufficiently strong to leave in all but faint hopes that the fleet would be able to share in the struggle of the day. At 4 o'clock, A. M., all the officers who had leave were on the alert, looking up waterproofs and forgotten mufflers before setting out for Cathcart's Hill, to see our opening fire. At this hour, nearly all, except the sentries, were asleep, nor was there anything whatever to denote that one of the most bloody struggles that ever disturbed the world, or defaced the annals of civilization, was about to commence.

A heavy mist hung over the sea, and partly over Sebastopol, while both were obscured, every now and then, by the clouds of rain which were driven before the wind. The north side was almost completely invisible, though the mouth of the harbor was clear, and a heavy sea running in, broke in a wild line of breakers over the sunken ships. In Sebastopol itself, everything was quiet and calm as usual. Where the head of the harbor could be seen, two or three large boats seemed crossing it near the land, but no other signs of activity were visible, either in the water or in the town. It was now five o'clock; none of the clocks in Sebastopol could be heard to strike, as the wind was very strong, and blowing up the harbor and across the town. Each moment the weather became thicker and more wet, so that in a few minutes hardly any of the town was visible. The grim line of batteries, however, remained well in view, though they also seemed as quiet as inside the walls.— In the Malakoff a few soldiers could occasionally be distinguished in the embrasures, and then between it and the Mamelon, but this was all.

Suddenly, at a quarter past five o'clock, A. M., a gun was fired from our right attack. In a second afterwards, running up and down the line— from the little mounds and hillocks near Inkerman—from the broad commanding positions of Green Hill and Gordon's Batteries—from quiet picturesque ravines, where no one dreamt of guns lurking—high from the rear on steep and lofty ridges, and away down to the left, where the French works stretch out—over low marsh lands to Kamiesch—from every point of— our lines came a hundred streaks of flame and masses of smoke. For a minute after there was silence, and then the great concussion came rumbling on, slowly mastering both wind and rain, and swelling into a roar that seemed to shake both heaven and earth. The shells and bullets of the first discharge made of themselves a perfect uproar, as they fell like an iron hail full upon the enemy's batteries. Some shot were short and went bounding towards the works, scattering the earth like water. Some were too high, and passed clear over everything into the town; but the great mass were well aimed and true, and passed full into the embrasures, clearing all before them.

The shells burst everywhere about like crackers, and the stunning explosion of the great mortars made themselves conspicuous over every other noise, as the huge bombs screamed through the air, carrying death and destruction into the Mamelon and Malakoff. After this first tremendous volley each gun worked as it could, and a regular file fire of mortars and heavy guns commenced upon the place. The enemy appeared completely surprised. With the first awful salvo a general confusion was observed in their batteries: For three or four minutes not a gun replied —then the Mamelon fired three or four at once, and the Redan and Malakoff also began a slow irregular cannonade. The Flagstaff Battery was also quick in sending two or three shells, but the great mass of the guns in all the Russian works were silent. Gradually, after a lapse of five or ten minutes, their fire extended—but, before half their ordnance was manned, ours had fired a dozen rounds, so that some of the enemy's guns were struck before they fired a shot, and past all manning. It was nearly six o'clock before all their works were in full play, and then each battery, pelting against its assailant, fell to business in earnest.

THE LATE MR. VAN DYKE.—The Detroit *Catholic Vindicator* furnishes the following facts respecting Mr. VAN DYKE's last illness:

"Although Mr. Van Dyke had been somewhat indisposed for some weeks, yet the symptoms of illness were not of a character to excite any apprehensions, and he was in fact quite convalescent from his first attack, when the epidemic of measles bereaved him of two young lambs of his flock, which so deeply grieved his sensitive and tender affections as to again interrupt his perfect recovery. This temporary shock, however, had passed, and he was regarded as almost re-established in his ordinary health, so much that, on the Friday preceeding his death, he, in fulfillment of an intention long entertained, presented himself for administration into the Church, and had the sacrament of baptism conferred upon him at the Font of St. Ann's by the Rt. Rev. Bishop. On Sunday alarming symptoms again re-appeared, that baffled all that medical skill could suggest, and after receiving all the last sacraments and consolations of the church from the Right Rev. Bishop, calm, collected, tranquil and resigned, he departed to appear before the throne of Him who made him.

IMPROVEMENTS AT BEAVER DAM.—The Beaver Dam *Republican* of the 11th instant says:

Messrs. Rose & Bogert have purchased the corner lot opposite the Empire Block, and in connection with A. Loomis Esq., have contracted for the immediate erection of a Brick Block, 4 stories high and 90 feet deep. The plans are now being made by Messrs. MYGATT & SCHMIDTNER, of Milwaukee, and are of the most improved modern style of Architecture. The Dodge County Bank of Messrs. Rose & Bogert is to occupy the corner. The three remaining stores are already leased—the store adjoining the Bank to a large Book concern—the next adjoining to J. W. Robinson & Co., as a Drug House, which we will venture to say will not be surpassed in this State. The remaining tenement is to be occupied by C. Chadwick, Esq., of Madison, as a heavy Dry Goods House. The block is to be completed the 1st September.

"IMPROVEMENT" COMPANY'S IMPROVEMENTS.— The Fox River Improvement Company are making extensive improvements at their depot, half a mile above his place on the west side of the river. They have erected a warehouse 40 by 90 feet, two stories high. They are also erecting a grain store house with elevators, 50 by 90 feet, four stories high. Their dock extends 275 feet into the river, with 170 feet front. These works are under the direction and supervision of Mr. O W. CLARK, an experienced mechanic, who is making rapid progress with them, and will have everything completed and in order for the fall business.

M. CALLAGHAN has a steam tug on the stocks, at his ship-yard, which he is building for the Company, and which he intends to launch in a few days. The machinery is ready to be put in soon as she is launched. The tug will be ready for business in a short time.—[Fort Howard Era.

LEAD MINING IN DANE COUNTY.—Mr. Ebenezer Brigham of Blue mounds, in this county, has recently commenced working anew the lode discovered by him many years ago. Some New York men have interested themselves in it; a new shaft has been sunk; and pumps worked by steam are used in the mine. The deposits is a very rich one. A great quantity of mineral was raised there formerly, and the mine under the new arrangement promises to be even more remunerative than ever.—[Madison Journal.

THE WEST GOING EAST.—It is a fact worthy of note that the first locomotive that reached Racine on the Lake Shore Railroad was built at Milwaukee. This is only the beginning, and the time is not far distant when the West will supply the East with produce and manufactures, when the great exciting question will be. "What are the Western news?" Hurry up that Pacific railway.— [Madison Patriot.

CITY MATTERS.

POLICE COURT.--May 16.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

A. H. Johnston was tried for an assault and battery upon Cornelius Washington, and found not guilty. The evidence showed a great deal of forbearance on the part of the defendant, repeatedly telling the complainant to leave his premises, and when he refused then attempting to eject him.

Charles Reed, who was arrested a day or two since for beating his wife when drunk, and committed to jail, was brought down for trial in the morning. The matter was finally settled by the defendant paying the costs—he claiming that his wife struck him first, and that what beating he gave her, was in self-defence.

BOARD OF HEALTH.—A special meeting of the Common Council is to be held this evening to organize the Board of Health. It is full time that the Board were at work and proper means taken for the thorough cleansing of the City.— With the immense influx of new comers, this Spring, more or less of sickness may fairly be expected, but with due care and diligence on the part of the Board of Health, the general health of the city can be preserved. The work of purification, however, must be done up thoroughly, and the Ordinances against nuisances, the deposit of filth in the streets, &c., rigidly enforced. Otherwise, should the summer prove hot and dry, we cannot escape considerable sickness. Let the Board of Health, therefore, go to work without delay, and having had the city thoroughfares well cleansed, serve them with a good coat of lime.

REHEARSAL.—The Company formed by Mr. OTTO RUPPIUS for his musical entertainments, hitherto announced, gave a private rehearsal on Tuesday evening. We were unable to be present till late, but from our previous knowledge of the performers, and from such portion of the pieces as we heard, we can very cheerfully endorse the following remarks of the *Free Democrat* of last evening:

It was glorious music, such as we have seldom heard equalled, and we only wish all the lovers of good music could have heard it. Mr. Ruppius showed himself a superior leader, and thoroughly qualified to conduct successfully such an orchestra, imparting to each performer his own enthusiasm.

We learn that another rehearsal will be given, on Tuesday evening next, for the friends of the performers, and a public concert soon afterwards.

Mr. RUPPIUS has exhibited fine taste in the selection of his party, and we cannot doubt that the entertainments which he proposes to furnish will be highly popular, and successful.

City Ordinances and their Enforcement.

Whatever may be said in favor of the Charter and Ordinances under which this city is said to be governed, it is certain that the enforcement of the Ordinances is shamefully neglected, and the stranger who comes here will be sadly disappointed if he expects to find good order prevailing.

From the moment he lands, instead of finding special constables to preserve order—whether his debarkation takes place upon the platform of the Railroads, or the steamboat Pier—his head will ring with innumerable echoes of runner's bawls —the drum of his ear will be transformed into a daguerreotype plate, to receive impressions of the "Walker House," "Miner's Arms," "Mexican House," "Baltic House, gelm'n," "Cross Keys," "Cab for any part o' the city," "Central Hotel," "Davis'-Line-for-the-Boats," "Private-Carriage-right-here-ma'm," "Would'nt you like to go to the St. Clair House?" the whole tapering off by a boy in the back-ground, shouting "Eastern 'Otel; the whole of the yelling appearing more like a test of the capacity of the lungs of the bawlers than anything else.

If accompanied by a lady, the traveller will be fortunate indeed if he can get her through the crowd without having to drag her with some force, as the idea of keeping a passage way clear for females has not as yet taken lodgings in the brains of the specials. It is only with the greatest difficulty, accompanied with no slight knowledge of inland navigation, through boxes, coach whips, runners, hack and cab-men, that a lady can be got, with safety to her dress, from the decks of a steamboat to the end of a pier, or from the railroad car to the omnibus, carriage or cab, that takes her to the point of destination. If, on the traveller's arrival, he should scan the crowd closely, at the pier for instance, he might by a mere possibility, detect an official—a very good natured looking kind of a man, with face somewhat indicative of good living and a plentiful supply of malt beverage; with a mind perfectly tranquil amid the hurricane of noises around him; and an equanimity not in the slightest disturbed by the din of the runners' vocal artillery. This is the special representative of the city, and this is about all the stranger will see of him, except by chance some runner or hack-man &c., should happen to tread on his toe—he is tender-footed —he will then discover that he "lives and moves and has his being;" and he will keep moving till the pain in his corns subsides.

At the cars the scenes are on a par with those daily enacted at the piers. The instant the wheel of the brakes takes its backward turn, and at the moment the square-toed boot of the first passenger greets the platform, the din of Babel commences, the name of every house in town is yelled out at the highest pitch accorded by nature and free exercise to the human voice. The platform in another moment is crowded, choked up, becomes utterly impassable for ladies, and those ladies who happen to be without protectors are compelled to remain in the cars till the hurricane has subsided, and order restored to Warsaw.

Here the passenger may see by looking sharp or he may have pointed out to him by others, in the dimness of the distance, a tall, gentlemanly looking man, neatly attired in black, and bearing a striking resemblance to a London mute, as the representative of a city of forty thousand inhabitants, to preserve order at the cars. But for what purpose this gentleman attends the cars so regularly, he would have been at a loss to discover, but for "information derived." He might have thought him a retired citizen, paying daily visits to the platform to admire the wonderful power of steam as it propelled the locomotive, or he might have thought him a mechanic, attempting the invention of a machine for suddenly stopping the cars from running, or making visits to the trains to inspect the workings of the eccentric. Conjecture might follow conjecture, but no passenger or sensible man, uninitiated in the mysterious intricacies of C. C. elections, would for a moment suppose that this quiet, well-behaved, patient, immovable pattern of dignified humanity, was a special policeman, sent there and paid a good salary by the tax-payers of Milwaukee to prevent noise and confusion, to preserve order, and give the city the appearance of a civilized people in the eyes of strangers from other lands, or other portions of this land. But besides these we have two other officers whose sworn duty it is to see that the Ordinances of the city are enforced, and although one of them may be seen "on a train," the other we have never seen at the cars on their arrival, or at the landing of passengers from steam boats. Here ends the first lesson on City Ordinances and their enforcement.

JUMPED OVERBOARD.—A man, said to be a native of Lancashire, England, jumped overboard, and was drowned, from the steamer *Arctic*, immediately after her leaving the pier on Tuesday afternoon. It appears that he made two attempts to jump into the lake between Chicago and here.— We were unable to learn his name.

THE MAMMOTH GRAPE MAN.—We were informed yesterday that the Mammoth Grape Man's pre-emption near Van Cott's Corner would expire at noon to-day. We understand that arrangements have been made to take his daguerreotype before leaving town, he offering unusual facilities for that purpose, by his steady position.

THE SCHOONER BAY STATE.—We had the pleasure, yesterday, of inspecting this fine craft, of which our Buffalo exchanges have said so many good things. Capt. WM. D. ROBINSON, well known in our port, and who commanded the brig *Greyhound* last year, now walks the decks of the *BayState*, and is wonderfully proud of his vessel. And well he may be, for she is, all in all, the best built sailing craft which has ever come into our port. The stern is decked over, making a convenient and pleasant cabin, sleeping accommodations and kitchen. Going down into the hold, we found that she is built for heavy seas, being strengthened by heavy oak plank laid in arches, and by tamarack knees.— The timbers and plank are unusually massive and heavy, while her model is fine, and she sails like a witch. She is fitted with all the modern improvements of patent capstan, winch for managing the centre board, and steering apparatus.

The *Bay State* is the first sail vessel in from Buffalo this season, and brings a large cargo of seasoned lumber. She is 344 tons register, cost $15,500, and is a credit to her builders, Messrs. B. & F. JONES, of Buffalo.

HANDSOME CARRIAGE.—We saw yesterday, at the livery stables of S B. & J. Davis, one of the handsomest carriages we remember to have seen in any country. It had just arrived from the carriage factory of Whitbeck & Jones, New York. The inside trimmings are elegant, of a light drab color on worked carriage broad cloth. The style of the carriage is an open or closed Barouche, as may be desired; its cost is nearly a thousand dollars, and following either of the fancy teams of this livery stable, will form a turn-out fit for a millionaire. It can be seen at the carriage house opposite the Milwaukee House.

WEATHER.—After a hot day Tuesday, rendering ordinary dress uncomfortable, the wind changed around and yesterday it was cold enough for Greenland. Last night, there was every prospect of a frost. It would be a bitter thing for the fruit, as the trees are all in blossom.

REAL ESTATE.—J. H. CRAMPTON offers for sale some very desirable property lying on one of the best plank roads, very near the city. See his advertisement for particulars.

DAMAGED GOODS.—ROONEY gives notice of a large sale of goods, to come off soon. Make a note of it.

MORE DAMAGED GOODS.—WALL proposes to sell at auction shortly, some $40,000 worth of goods, damaged on the propeller *Niagara*. See advertisement.

A NOVEL CARGO.—The schr. *M, L. Collins* arrived yesterday from Sackett's Harbor, bringing about 100 emigrant passengers, comprising quite a number of families, with horses, cattle, household furniture, luggage, &c. This is the first arrival of the kind.

CIRCUIT COURT.—In the Circuit Court yesterday, Eli Ramspech was tried for stealing a gold ring, of the value of $1,25, the property of Julius F. Webber; found guilty and sentenced to the State Prison for one year.

AGROUND.—The propeller *Saginaw*, from Buffalo, which lay hard aground for some 24 hours or more near the mouth of the river, having got off came up the river last evening.

☞ The steamer *Traveller* arrived from Chicago yesterday afternoon with 380 passengers, a good load of freight and seventeen horses.

VESSEL SALE.—Messrs. H. H. HARRISON and A. R. CHAPIN of this city, have purchased the brig *Helfenstein*, seven years old, for $6,800.

A Spirited Editor.

G. W. Brown, of the Kansas Herald of Freedom, is one of the most independent editors in the West. He is said to stand six feet in his boots, and his entire personal appearance argues great resolution to carry out his purposes. Hear how he talks about the Parkville mob, and the threats that have been made against him:

A FREE PRESS.—It was said by the rioters in Parkville last Saturday that the destruction of the Luminary office was designed as an example to others, and it was very knowingly hinted that ours will meet a similar fate. Very well, we have concluded to give any number of persons who wish to perpetrate such an act of folly on us a free pass to "kingdom come," and we pledge them every assistance in our power.— Probably they never took an upward journey, and would like to try the experiment of sailing on a blaze of glory, such as a couple of kegs of gunpowder, exploded at the opportune occasion, would furnish.

We have not a member in our family, ourself included, who would not deem a transit into the future life, with *campagnous du voyage* of a goodly number of printing press destroyers, as a favor rarely to be met with. Should the Herald of Freedom Office at any time be invaded for the purpose of destruction, we give this timely warning to all, both friend and foe, that unless they wish to "go up" they had better keep aloof from its immediate vicinity, for our purpose is fixed, and the consequences cannot be prevented.

We have prepared a duplicate copy of our subscription books, and that subscribers may not be losers by any contingency which may arise, we hereby authorize and depute our esteemed friend and General Agent, H. A. Billings, Esq., to resume the publication of the Herald of Freedom, should it be suspended by violence, at such point as he may designate, and we further donate to him our entire effects in Kansas, Pennsylvania or elsewhere, to prosecute the publication of such paper, with this one condition, that he shall give the advocates of slavery particular "Jesse" during the balance of his life.

To the Settlers on the Even Sections.

Those Settlers on such of the "Even Sections" as were selected and advertised some months since, and who paid the Company for their lands, will be pleased to hear that their Deeds will be ready for them before the close of the month—the necessary releases from the bondholders having been duly executed the last week in April.—[Appleton Crescent.

☞ We are gratified to learn that our distinguished townsman, H. H. Emmons, Esq., who has been seriously ill for several days, is now considered out of danger, and that his speedy recovery is confidently anticipated.—[Detroit Tribune May 14.

DIED.

On the 16th inst., EDWARD MALLONY, aged about 45 years.

Funeral at his residence on Jefferson st., between Huron and Detroit sts., this afternoon at 3½ o'clock.

In Lawrence, May 1st, Mrs. SARAH STEWART, widow of the late Robert Stewart, aged 66

Mrs. S. was one of the early settlers of Brown county, and among the original members of the Presbyterian Church of Green Bay, in which her husband was an Elder.

Greatly esteemed and beloved in life, she was followed to the grave by a larger number of honored relatives than is often seen at a funeral in the West; among whom were 16 adult sons and daughters, by birth or marriage, all settled near the dwelling of their deceased parents.—*Ft. Howard Era.*

MARINE INTELLIGENCE.

STEAMER THROUGH THE "SOO" CANAL.—The Cleveland *Herald* of Saturday, 12th, announces the important intelligence that the steamer *Illinois*, Capt. WILSON, who commanded the steamer *Empire State* last season, will on her next trip to the Upper Lakes, pass through the Sault Ste Marie Canal into Lake Superior, and pay a visit to Fond du Lac at the head of that inland sea, to which place she is to run regularly during the season. Large parties have made arrangements to go up with him.— There is no obstruction to navigation on Lake Superior, but no boat had arrived from Ontonagon at the Saut.

MORE NEW VESSELS AT BUFFALO.—Messrs. Bidwell & Banta are now building, at their yard in the Creek, a large first-class propeller, of 700 tons, and a schooner of 350 tons, both to be out some time in August. The latter vessel is building for Alexander Smith.

STEAMER QUEEN CITY.—This steamer arrived on Saturday from Erie. She has been re-painted and thoroughly repaired for the season's campaign. Her cabins and state rooms are very elegantly fitted up, and she will shortly leave for Chicago and thence to Collingwood to take her place in that line.—*Buffalo Com.* 12th.

Saturday morning, mixed corn at 80a85, yellow 90, white 1,00a1,05; oats 58a60; rye 1,55. We observe no change in wheat. Choice qualities of white and red would probably command 2,35 to 2,40.

New York Money Market.

The N. Y. *Evening Post* of Saturday says:

The aspects of the money market are without change. The supply, which is increasing, already far exceeds the demand, which is decreasing. New enterprises are mostly shunned, but falling rates of interest will insure in time more activity in the securities of acknowledged intrinsic value. The discount rates range from 5½ to 7 ₩ cent. viz:

MEXICAN MUSTANG LINIMENT.

From rich and poor, bond and free—all grades, colors and conditions, the same meed of praise is irresistably given to this wonderful preparation. Thousands of bottles are *sold and used daily*, and but one universal opinion is uttered by all who use it, and that is, that no remedy ever before discovered, possesses such perfect healing and curative properties. *It acts like magic* in relieving pains of any kind, no matter by what caused, or how excruciating—sprains, dislocation of joints, bruises, cuts, burns, scalds, ulcers, cancers, rheumatism, piles, caked breasts or any pain, soreness, stiffness, or weakness of joints, muscles or ligaments. The Liniment is equally applicable and equally effectual in giving immediate relief. Try it.

Holloway's Ointment and Pills, the most efficacious Remedies in the Union for the cure of Erysipelas. Emma Henderson, of Fourth st., Philadelphia, was a very severe sufferer for two years with the Erysipelas; she became almost blind and deaf with the severity of the disease, so bad was the attack; she consulted several of the Doctors in her neighborhood, but they did her no good. She finally determined to have recourse to Holloway's Ointment and Pills, and by the joint use of these two remedies, she was cured in six weeks, after every other treatment had failed. my16 d&wlw

THE GOOD SAMARITAN.

A little girl crossing Broadway, above the mound, a day or two ago, was knocked down and badly bruised by the reckless driving of a drunken brute, who immediately put whip to his horse and made off. Several persons ran to see if the child was hurt. Whilst some cursed the driver—some pitied the child, and others wondered who she was—an old countryman got down from his wagon, drew from his pocket a bottle of Mustang Liniment, bathed the wounds upon the child, and carried her in a state of insensibility, to a neighboring house, which proved to be her home. Yesterday he had the satisfaction to see her quite well. "Ah!" said the old man, "I never knew it to fail—I always carry a bottle in my pocket;" and so he does. —*St. Louis Intelligencer.*

Outside efforts to get up a new trial to elect a U. S. Senator, are quite vigorous. The chances were very slight. The question, according to a letter from Sacramento, has assumed a new and rather complicated phase, as under a strict construction of the laws in relation to elections in California, there appears to be no doubt but Dr. Gwinn is entitled to a seat in the Senate. The constitution point seems to be a clause in the [illegible] given at which declares that a plurality of votes [illegible] Dr. any election shall constitute a choice—and Gwinn having received a plurality of votes over Edwards on the first ballot in joint convention, it is concluded that he was constitutionally elected.

PATENT MEDICINES.

PROCLAMATION

To the Sick.

BRING hither "the poor, the halt, the lame and the blind," if you would have them healed of their many infirmities. We boldly and fearlessly assert that the Mustang Liniment will positively cure Rheumatism. If any one who is afflicted with that most painful complaint, try it thoroughly according to directions, and if they are not cured we will give them their money back. What more can we say? It will also cure the Piles. Thousands have tried it—and all were cured. Bruises, Sprains, Swellings, Eruptions fade away as if touched with the magician's wand. Its application to Burns or Scalds acts like "oil upon troubled waters." The tempest of pain and agony is soon stilled, and the patient is hushed to quiet and peaceful slumbers. "There is a balm for every wound," and that balm is the Mustang Liniment. Everybody that sells medicine keeps it for sale. "Hold your horses," and if they are crippled, galled or sprained, use the Mustang Liniment. In a word it is

RELIABLE EVIDENCE.

BLOOMFIELD, MO., January 15, 1851.

Messrs. A. G. Bragg & Co.,

Dear Sirs, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in the case of burns or scalds. I had a son badly burned on his face and hands by powder. It was expected that he would be badly scarred for life. We applied the Mustang with raw cotton, and nothing else, and in ten days he was entirely well and left no scar, or mark whatever. My wife used it in a case of scald from boiling-hot fat, and it had the same good effect

Yours, truly, D. B. MILLER, County Judge.

RUSSELL COUNTY, ALA., Feb. 1, 1853.

For the benefit of the afflicted, I feel it my duty to state publicly the remarkable cure that has been effected in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger The inflammation had been so excessive, that the whole finger had become a mass of corruption, and the only hope of saving her hand and perhaps her life, appeared to be to have it cut off. As her constitutional health was very delicate, the Physician advised to try the Mustang Liniment a few days, till she could be sent to a surgeon in Columbus, as it could do no harm and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was severely burned; the skin was entirely taken off from the knee to the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief; but a short time elapsed before the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILLIPS.

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves [illegible] with the System adopted by the Company, [illegible] they will be better able to decide whether a life insurance is desirable or not, and at what Office it is [illegible].

The many reasons why Fire and Marine Insurance should be adopted are incontrovertible; and Life Insurance, which in no way interferes with, or undervalues these important institutions, has claims which no other system of insurance can have. Human existence must [illegible] enjoy a much higher estimation than worldly property.

When the representative of a family lives, (although [illegible] insure his property, he becomes bankrupt [illegible] his family; but at his death, dies also their means of support, unless he has saved them from want [illegible] on his life, which may be done by the payment of a small annual premium, the payment of which has [illegible] diminished his own worldly comforts during life.

If young, the annual payment will be light, and if insured [illegible] policy will be constantly growing more valuable, though the premium is not increased.

Clergymen [illegible] who have a stated and regular income, [illegible], well knowing that, at their death their families may be left destitute,

Men engaged in [illegible] or manufacturing pursuits ever varying and uncertain in their issues, should assure.

The farmer who has still a mortgage on his farm, should assure, at least to the extent of it, thereby enabling his family to pay off the debt in case of his death.

Great rejoicing attended the capture of Baker, and his return to this city. It was made without difficulty, on board the Isabella Jewett. He stated that it was his intention to go to Constantinople and take part in the war in the Crimea. On board the Isabella Jewett, he passed under the assumed name of Brown. The Prisoner was taken on board the tow boat, and quickly conveyed to the Tombs, thus escaping the scene of excitement that attended the arrival of the Grapeshot at her dock.

Outside efforts to get up a new trial to elect a U. S. Senator, are quite vigorous. The chances were very slight. The question, according to a letter from Sacramento, has assumed a new and rather complicated phase, as under a strict construction of the laws in relation to elections in California, there appears to be no doubt but Dr. Gwinn is entitled to a seat in the Senate. The point seems to be a clause in the constitution which declares that a plurality of votes given at any election shall constitute a choice—and Dr. Gwinn having received a plurality of votes over Edwards on the first ballot in joint convention, it is concluded that he was constitutionally elected.

Two hundred and sixty-four ejectment suits had been commenced in San Francisco, in view of the expiration of the statute of limitations.

We boldly and fearlessly assert that the Mustang Liniment will positively cure [illegible] any one who is afflicted with that most [illegible] try it thoroughly according to directions, and if they are not cured we will give them their money back. What more can we say? It will also cure the Piles. Thousands have tried it—and all were cured. Bruises, Sprains, Sores, Eruptions fade away as if touched with the [illegible] wand. Its application to Burns or Scalds acts like oil upon troubled waters." The temper [illegible] pain and [illegible] is soon allayed, and the patient is hushed to quiet and peaceful slumbers. "There is a balm for every wound," and that balm is the Mustang Liniment. Everybody that sells medicine keeps it for sale. "Hold your horses," and if they are crippled, galled or sprained, use the Mustang Liniment. In a word it is

RELIABLE EVIDENCE.

BLOOMFIELD, Mo., January 15, 1854.

Messrs. A. G. Bragg & Co.,

Dear Sirs, Allow me to add my testimony to the excellent properties of your Mustang Liniment, in the case of burns or scalds. I had a son badly burned in his face and hands by powder. It was expected that he would be badly scarred for life. We wrapped his hands with raw cotton, and nothing else, and in ten days he was entirely well and left no scar, or mark whatever. My wife has used it in a case of scald from boiling-hot [illegible] and it had the same good effect

Yours, truly, D. B. MILLER, County Judge.

RUSSELL COUNTY, ALA., Feb. 1, 1853.

For the benefit of the afflicted, I feel it my duty [illegible] publicly the remarkable cure, that has been [illegible] in my family by the use of the Mustang Liniment. A negress of mine had what is called a Bone Felon, or Whitlow on her finger. The inflamation had been so [illegible] that the whole finger had become a mass of [illegible] and the only hope of saving her hand and [illegible] life, appeared to be to have it cut off. As her general health was very delicate, the Physician advised trying the Mustang Liniment a few days, till she could [illegible] to a surgeon in Columbus, as it would do no harm and might prevent mortification. To the astonishment of the doctor and myself, the pain soon ceased, the inflammation subsided, and the wound rapidly healed. The finger is perfectly well and sound. One of my boys was [illegible] burned; the skin was entirely taken off from [illegible] the ankle. The Mustang Liniment was freely applied, and nothing else was used. The relief and cure were almost beyond belief; but a short time elapsed till the wounds were perfectly healed. I consider it an invaluable remedy, and it should be in every family and on every plantation. JAMES PHILLIPS.

NOTHING NEW—BUT EVER TRUE.—It would be nothing new to say that the Mustang Liniment had been and was now more used in the United States than any other preparation. But it would be true to say that it [illegible] more uniformly successful in healing wounds, cuts, burns, [illegible] and all manner of sores; as well as [illegible] swellings, pains or lameness in the back, [illegible] than rheumatism, any other remedy. There [illegible] that millions of persons now living [illegible] say nil [illegible], and base the assertion [illegible] [illegible] bottles have been used and [illegible] [illegible] complaint against it, where it has been used [illegible] [illegible] We deem it necessary [illegible] and [illegible] the people of this [illegible] to an [illegible] any man [illegible] never have had an occasion [illegible] try it who [illegible] the most incredulous [illegible] One trial is [illegible]. RHODES' FEVER AND AGUE CURE,

OR,

Nature's Infallible Specific.

FOR the Prevention and Cure of Intermittent and Remittent Fevers, Fever and Ague, Chills and Fever, Dumb Ague, General Debility, Night Sweats, and all other forms of disease which have a common origin in Malaria or Miasma. This subtle atmospheric poison which at certain seasons is unavoidably inhaled at every locality, is the same in character wherever it exists,—North South, East or West,—and will everywhere yield to the newly discovered antidote, which is claimed to be the GREATEST DISCOVERY IN MEDICINE EVER MADE.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation

The proprietor distinctly claims those extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveler even in the most sickly or swampy localities, from any Ague or Billious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered any length of time, from one day to twenty years so that they need never have another chill, by continuing its use according to directions.

It will immediately relieve all distressing results of Billious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men by adopting it as a preventative will be free from Ague or Billious attacks in that season of the year which, while it is the most sickly, is the most valuable one for them.

One or two bottles will answer for ordinary cases, some may require more.

Directions printed in German, French and Spanish, accompany each bottle.

Price One Dollar. Liberal discounts made to the trade.

Trade circulars forwarded on application and the article will be consigned on liberal terms to responsible parties in every section of the country

For the Relief and Cure of Suffering Females.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty. JOHN C. ORRICK, M. D., Baltimore, Md.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited [illegible] that one nothing will help.

Truly Yours,

WM. LAIRD HAZLETT, M. D., New Philadelphia, Ohio.

July 6th, 1854.

I must say, from my own experience and personal observation in my practice, it has proved to be the best and most remedy for the difficulties for which it is recommended [illegible] female weakness, such as Prolapsus [illegible] Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

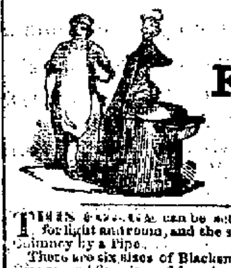
QUEEN'S PATENT



PORTABLE FORGE AND BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of superior construction—heats the iron in the quickest manner—the wind escapes from the hot-air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and cinders, as it will where there is but one opening. For out-door work and for safety in-doors, this Forge has great advantages over others, having two Slides by which the forge can be closely shut up, and for safety and many purposes in-doors, particularly for Jewelers, Dentists and for chemical operations, all the fumes from charcoal and acids being conducted through the smoke-pipe, or when open they are entirely out of the way; it is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire-bed.

It is the best Forge for Contractors on Railroads, Public Works (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are in necessary use by most of the steamers, and also by the U. S. Army and Navy. For sale by

The description of it is as follows, given by the owner, and he offers it on easy terms:

"The said Farm is situated upon the west end of Pewaukee Lake, two miles south of the village of Hartland, in Waukesha county, containing three hundred and fifty acres of land, well watered by springs, and has a mile of front on the lake—has a good new framed house and barn located upon the bank of the lake, with good hard gravelled shore, and is surrounded with groves of fine hickory trees which bore in abundance last season, they being about five hundred bushels on the premises.

The above Farm was one of the first locations made in Waukesha county, in 1836, and now has over one hundred acres under plough, in a fine state of cultivation—about sixty acres of good hay land, the balance timber and all under fence, has a plank road within two miles on the north, and a good road within two miles on the south to the depot at Hartland, on the Milwaukee and Watertown Railroad, is within two miles. PATENT MEDICINE.

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well, while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted positions and character as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the—

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

JOHN B. FITZPATRICK, Catholic Bishop of Boston; also

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulas by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera, to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

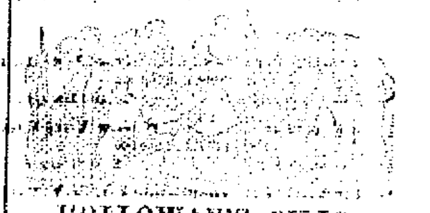
THE AMERICAN'S FRIEND!



HOLLOWAY'S PILLS.

To the Citizens of the United States:—

I most humbly and sincerely thank you for the liberal patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York.

THOMAS HOLLOWAY,

38, Corner of Ann and Nassau Streets, New York.

THE BLOOD, LIVER AND BILIOUS COMPLAINTS

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps the most handsome in the World, at a certain period lose their health and good looks while yet in the heyday of life. This is evidently but too effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy state, when life will flow smoothly. I say fearlessly, that health and life may be prolonged for years beyond their ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING.

Captain John Johnson, of Astor House, New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he was decided to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months, and he now enjoys the best of health.

These celebrated Pills are wonderfully efficacious in the following complaints:—

Ague	Dropsy	Liver Complaints	Secondary Symptoms
Asthma	Dysentery	Lumbago	Tic Douloureux
Bilious Complaints	Erysipelas	Piles	Tumours
Blotches on the Skin	Female Irregularities	Rheumatism	Ulcers
Bowel Complaints	Fevers of all kinds	Retention of Urine	Venereal Affections
Colics	Fits	Scrofula, or King's Evil	Worms of all kinds
Constipation of the Bowels	Gout	Sore Throats	Weakness, from whatever cause, &c.
Consumption	Head-ache	Stone and Gravel	
Debility	Indigestion		
	Inflammation		
	Jaundice		

Sold at the Establishment of Professor Holloway, 38, Corner of Ann and Nassau Streets, New York, also by all respectable Druggists and Dealers in Medicines throughout the United States, in Boxes, at 37½ cents, 87 cents, and $1,50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Box.

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females!

IT STANDS PRE-eminent for its curative powers in all the diseases for which it is recommended, usually called

Female Complaints

Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a [illegible] condition.

I have no hesitation in saying Dr. Marchisi's Uterine Catholicon is invaluable in uterine diseases generally. I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty.

JOHN C. ORRICK, M. D.,
Baltimore, Md.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited [illegible]—and that are nothing will help.

Truly Yours,
WM. LAIRD HASLETT, M. D.,
New Philadelphia, Ohio

July 6th, 18[illegible]

I must say, from my own experience and personal observation in my practice, it has proved to be the best and most remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

D. Y. FOOTE, M. D.
Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly distinguished Physicians, who have used it in their practice, and speak from their own observations.

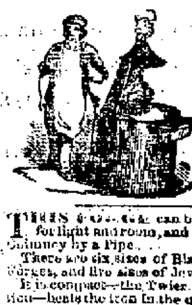
QUEEN'S PATENT



PORTABLE FORGE AND BELLOWS!

THIS FORGE can be set where most convenient, for light and room, and the smoke conducted to the chimney by a Pipe.

There are six sizes of Blacksmiths, Coppersmiths, &c. Forges, and five sizes of Jewelers, Dentists and Chemists.

It is compact—the Twier Iron is of a superior construction—heats the iron in the quickest manner—the wind escapes from the hot air chamber through several holes in the Twier cap, which being under the fire, prevents the Twier from getting filled up with coal and cinders, as it will where there is but one opening. For out-door work and for safety in-doors, this Forge has great advantages over others, having two Slides by which the Forge can be closely shut up, and for safety and many purposes in-doors, (particularly for Jewelers, Dentists and for chemical operations,) all the fumes from charcoal and acids being conducted through the smoke pipe, and when open they are entirely out of the way. It is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed.

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same,) and for emigration to new countries, ever offered to the public, and are in use by most of the steamers, and also by the U. S. Army and Navy. For sale by

CITY LAND OFFICE!

I CALL YOUR ATTENTION TO one of the most beautiful Farms in the state of Wisconsin, known as the

Walnut Hill Farm.

The description of it is as follows, given by the owner, and he offers it on easy terms:

"The said Farm is situated upon the west end of Pewaukee Lake, two miles south of the village of Hartland, in Waukesha county, containing three hundred and fifty acres of land, well watered by springs, and has a mile of front on the lake—has a good new framed house and barn, situated upon the bank of the Lake, with good hard gravelled shores, and is surrounded with groves of fine hickory trees which bore in abundance last season, there being about five hundred bushels on the premises.

The above Farm was one of the first locations made in Waukesha county, in 1836, and now has over one hundred acres under plough, in a fine state of cultivation, about sixty acres of good hay land, the balance timber—is all under fence, has a plank road within two miles on the north, and a good road within two miles on the south—the depot, at Hartland, on the Milwaukee and Watertown Railroad, is within two miles. Pewaukee Lake abounds with the finest kind of fish. The Farm is one of the best Stock Farms in all the Western country—none excelled. It is 25 miles from Milwaukee—6 miles from Waukesha.

Terms is one quarter cash—balance in 1, 2 and 3 years, with 7 per cent interest.

Now, who of you want a Farm? Here is a chance seldom offered; and it will be sold at a great bargain. Apply to apr18 CALEB WALL, Agent.

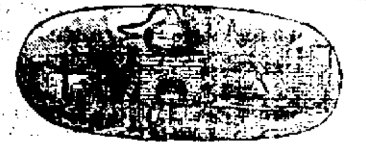
PATENT MEDICINES.



AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all Bilious diseases, Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back and Limbs, Female Complaints, &c., &c. Indeed very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well, while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything ever known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character, as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified in favor of these Pills, we may mention

Doct. A. A. HAYES, Analytical Chemist of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the—

Hon. EDWARD EVERETT, Senator of the United States.

ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England.

+JOHN B. FITZPATRICK, Catholic Bishop of Boston.

Dr. J. R. CHILTON, Practical Chemist of New York City, endorsed by

Hon. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & Co., Proprietors of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men, is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by Chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect, is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self evident the effects should prove as they have proved, more purely remedial, and the Pills a more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that many medicines should be taken under the counsel of an attending Physician, and as he does not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulas by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however, there should be any one who has not received them, they will be forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely, acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men, to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood, and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

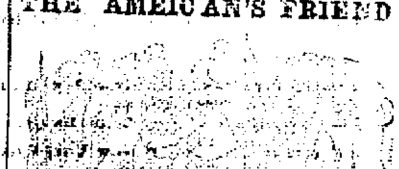
THE AMERICAN'S FRIEND!



HOLLOWAY'S PILLS.

To the Citizens of the United States:—

I most humbly and sincerely thank you for the liberal patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOMAS HOLLOWAY,

30, Corner of Ann and Nassau Streets, New York.

THE BLOOD, LIVER AND BILIOUS COMPLAINTS

The Citizens of the Union suffer much from disorders of the Liver and Stomach. The fair sex, perhaps the most handsome in the World, at a certain period, lose their teeth and good looks while yet in the hey-day of life. These evils may be effectually remedied by continually keeping the blood pure and the Liver and Stomach in a healthy state, when life will flow smoothly. I say fearlessly, that health and life may be prolonged for years beyond the ordinary limits, if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each Box.

CURE OF WEAKNESS & DEBILITY OF TEN YEARS STANDING.

Captain John Johnson, of Astor House, New York, suffered for ten years from a derangement of the Liver and Stomach, and was so reduced in strength, that he was expected to go to sea any more, having tried every known remedy without deriving benefit. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months, and he now enjoys the most robust health.

These celebrated Pills are wonderfully efficacious in the following complaints:—

Ague
Asthma
Bilious Complaints
Blotches on the Skin
Bowel Complaints
Colics
Constipation of the Bowels
Consumption
Debility
Dropsy
Dysentery
Erysipelas
Female Irregularities
